

We are thankful for the dedication and service by auxiliaries for the benefit of healthcare in our communities and in our province;

May we continue to gain strength and inspiration from each other.

We are thankful for fellowship, warm hospitality, and the opportunity to gather together for this conference.

Bless the leaders of our Auxiliaries, helping them to carry out their leadership with compassion and fairness.

We are thankful for life, the freedom to enjoy it and all other blessings.

May we look up with pride at what we accomplish, but also with humility acknowledging that those accomplishments are the result of combined efforts of many.

We are thankful for the food that has been prepared for us as we share this meal with delegates from throughout the province.

Bless the work we do as Auxiliaries, the people we help and our communities.

Amen
